

**Winterringer Building (Otie's Towne Pub)**

Otie's Restaurant

Main Street (Map No.5)

Attached to the rear of the Winterringer Building is a significant frame house which displays intact Gothic Revival features. Added to the Winterringer Building about 1875-80, this dwelling was almost certainly occupied by the family which ran the adjacent business. The residence displays original pointed and round-arched windows which give it a Gothic Revival style. Conversion to a restaurant resulted in the addition of a vestibule entry, but the exterior of the house otherwise appears to be intact.
