ENROLLMENT PROJECTION 1989

The law requires that the annual report project the enrollment for the district for the next ten years. Current low interest rates and economic conditions have significantly increased housing development throughout the district. The community of Hilliard continues to be one of the fastest growing suburbs in Franklin County as reflected in our daily increasing enrollment. Hilliard's proximity to Columbus and our current home building and industrial expansions indicate that the Hilliard City School District will continue to experience a high level of growth.
